

Section A. Facility Data	
Facility No.	281 and S281
Facility Descriptor:	Landfill Support Facilities, 522 square feet
Project:	RISS - Area 3 D&D
Date of Demolition:	September 9, 2002
Additional Information:	Building 281 was a single story fiberglass building on a concrete pad. S281 was a single story sheet metal building on a concrete pad. There were no underground utilities to S281. The buildings were demolished and disposed of as sanitary waste as part of the 280 Landfill Complex Demolition.. The concrete pads were sent for onsite recycle. Building 281 utilities were removed to four feet below grade and grouted. A map of utility disconnect locations is provided and a copy will also be submitted to the AR. Site restoration will be performed during the final land configuration for Rocky Flats.
(Must include information on environmental releases and conditions of site at turnover to Environmental Restoration)	

D. Section B. Final Characterization Data	
Reconnaissance Level Characterization Report (concurrence received)	Reconnaissance Level Characterization Report for Group D Buildings - Concurrence, Steven H. Gunderson to Joseph A. Legare, dated August 21, 2002, attached.
In-process Characterization	N/A - Type 1 Building
Pre-Demolition Survey Report (approval received)	N/A - Type 1 Building
Post-Demolition Survey Report (as necessary)	N/A - Type 1 Building

Section C. Waste Data (complete categories as appropriate)	
<u>Sanitary Disposal</u>	
Disposal Site:	Front Range Landfill, Erie, Colorado
Waste Volume (m ³):	32.8 Cubic meters
Waste Weight (tons):	11.8 tons
Additional Information:	Above grade building debris.
<u>Hazardous Disposal</u>	
Disposal Site:	Kettleman Hills Facility, Kettleman City, CA or Bethlehem Apparatus Co, Hellertown, PA
Waste Volume (m ³):	Minor amounts
Additional Information:	Electronic circuit boards, thermostats, exit signs, batteries, fluorescent light bulbs and any other RCRA hazardous components were removed and taken to the RFCA temporary unit for combination with like waste streams for disposal.
<u>TSCA Waste Disposal</u>	
Disposal Site:	Salesco, Phoenix, AZ; Clean Harbors Deer Park, Deer Park, TX; or BFI Tower Rd. Landfill, Commerce City, CO
Waste Volume (m ³):	Minor amounts
Additional Information:	PCB ballasts were removed and taken to the RFCA temporary unit for combination with like waste streams for disposal.
<u>Asbestos Waste Disposal</u>	
Disposal Site:	
Waste Volume (m ³):	N/A
Additional Information:	
<u>Low-Level Waste Disposal</u>	
Disposal Site:	
Waste Volume (m ³):	N/A
Additional Information:	
<u>Low-Level Mixed Waste Disposal</u>	
Disposal Site:

RE: Reconnaissance Level Characterization Report (RLCR) for Buildings 452, S452, T428B, T452A, B, D, E, F, and G - Concurrence

Dear Mr. Legare:

The Colorado Department of Public Health and Environment, Hazardous Materials and Waste Management Division has reviewed the RLCR for Buildings 452, S452, T428B, T452A, T452B, T452D, T452E, T452F, and T452G, as provided in the Group 12 Cluster Closure Project Revision 0 dated December 12, 2001, which was received on January 22, 2002. Based on the information contained in this RLCR, we are hereby concurring with the Type 1 designation for Buildings 452, S452, T428B, T452A, T452B, T452D, T452E, T452F, and T452G.

Although these buildings are currently identified as Type 1 Facilities, it is recognized that some of these facilities may still be in use. As such, even with "isolation controls" (posting/signs) contamination may inadvertently be carried or brought into these facilities. Therefore, additional assessments including investigations should be performed upon termination of active utilization. It is specifically indicated that a PDS will be performed on T452C. The consultative process should be utilized to acquire and provide this information prior to final disposition of these facilities.

If you have any questions regarding this correspondence please contact me at (303) 692-3367 or David Kruchek at (303) 692-3328.

Sincerely,

Steven H. Gunderson
RFCA Project Coordinator

ROCKY FLATS CLEANUP AGREEMENT (RFCA) STANDARD OPERATING PROTOCOL
(RSOP) FOR FACILITY DISPOSITION - NOTIFICATION LETTER FOR 991 TUNNEL
FEG-029-03

The Facility Disposition RSOP requires that DOE notify the Lead Regulatory Agency (LRA) prior to implementing work activities pursuant to this document. The Rocky Flats Environmental Technology Site (RFETS) received concurrence from the Colorado Department of Health and Environment (CDPHE) that 991 Tunnel was a Type 2 facility (August 8, 2003).

The purpose of this Notification is to invoke this RSOP for demolition of the facility, based on the attached Contact Records between Kaiser-Hill, DOE-RFFO, and CDPHE. Documentation of the facility status is in the Pre-Demolition Survey Report (PDSR) submitted on September 10, 2003. Associated RSOP documentation is provided in attachments 1 through 4.

As stated in the Reconnaissance Level Characterization Report (RLCR), dated February 4, 2003, and approved by CDPHE on August 8, 2003, 991 Tunnel was characterized as a Type 2 facility. The Pre-Demolition Survey Report (PDSR) submitted to CDPHE on September 10, 2003 documents the condition of 991 Tunnel.

If you have any questions or require additional information, please contact Karen Wiemelt x9883.
